

ROOMZ SA is a fast-growing company from Switzerland. We help companies manage their workspaces efficiently while boosting employee satisfaction. Our solution is a combination of easy-to-install, cable-free and elegant meeting room displays, accurate presence sensors and innovative SaaS software. The system can easily be connected to any existing calendar software such as Exchange, Office 365 or other booking systems.

To build up our Ecosystem and Solutions, we are currently looking for a

Senior Frontend Developer (m/f), 100%

At ROOMZ our *Senior Frontend Developers* are working on the SaaS products which bring high values to partners, customers and users. They have a key role in the mission to provide great solutions for more effective and more enjoyable workplaces.

Responsibilities

- Analysis, architecture, development, tests, deployments, and bugs management of new and existing software
- Develop components reusable between the different applications
- Apply software development best practices (e.g. SOLID)
- Collaborate with the UX/UI and Backend teams
- Provide guidance to less experimented developers, including code review
- Providing appropriate documentation

Your Profile

- Dedicated, passionate and analytically minded
- Bachelor, Master in Computer Science or equivalent
- Minimum 5 years of significant experiences in web development
- Proficient in React and Redux
- Excellent skills in Saas, Webpack, Git, NodeJS, NPM
- Knowledge in signalR, TypeScript, React Native and Material UI is a plus
- Ability to take ownership and to work independently
- Fluent in English, both verbal and written (French is a plus)

Our offer:

- An exciting job in an inspiring and stimulating work environment
- A flat organisation where individual contribution is valued
- A lot of independence and responsibility
- Adequate compensation
- Working from home or from a Co-Working Office
- Regular team events, after-work beers, and fondue...
