FACTSHEET
myROOMZ APPLICATION

A simple app to manage all your workspaces

A workspace booking app designed for employees.

The myROOMZ app is the ideal tool for simple and smart management of your workspaces. Let your employees organise their office work time by pre-booking the workspace that best suits their needs. myROOMZ lets you optimise your space, increase productivity and promote collaboration.

QUICK INSTALLATION

Installation and configuration of myROOMZ takes just a few minutes. The single sign-on connection means that no additional login is required.

RESERVE/FREE UP A WORKSPACE

Find and book a workspace on the interactive floor plan in seconds. This workspace is no longer needed? Free it up instantly for other employees to use.

IMPROVE COLLABORATION

With the "Favourites", "Search" or "Book for a colleague" functions, employees can organise their day in the office, coordinate their schedules and sit next to each other to work in teams.

Create flexible workspaces with myROOMZ.

Let your employees reserve a parking space with Smart Parking so they can better plan their time at the office.

MANAGE YOUR PARKING SPACES

Managing parking spaces often becomes complex when flex office is introduced. Launch smart parking by allowing your employees to reserve a space in advance for themselves or a visitor.

THE RIGHT DESK AT THE RIGHT TIME

The integration of tags enables each employee to find the workspace that best suits their needs at any given time (e.g., equipment, zones, etc.).

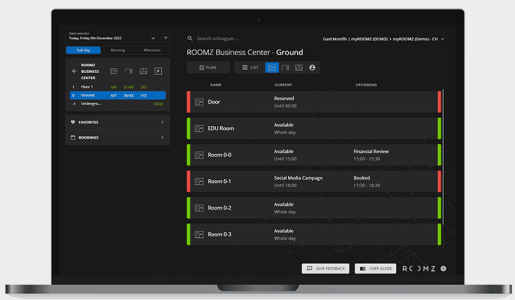

WEB AND MOBILE VERSION

To keep up with the new mobile ways of working, myROOMZ is also available as a mobile app, offering the next step towards remote collaboration.

FLIGHTBOARD

You can publish all current and future meeting room bookings in real time with the ROOMZ Flightboard. See at a glance where your next meeting will take place or locate a free collaborative space to work together.
